Subject: [External] Energy rate increase

To whom it may concern,

How can you raise our rates now after consumers in this area financed SCE&G's power plant building failure and after very little was returned to the customers? There are enough people moving here every day (announced today in the Post & Courier that Charleston is the 17th fastest growing city) to provide the extra funds or profits you are hoping to receive. Do not increase our rates. They are already ridiculously high. We object to your proposed rate increase.

Respectfully,

Patricia and Jeffrey Hyland

Mt Pleasant, SC
